

As a listener of K-LOVE Radio which broadcasts on an FM translator, Im concerned about LPFM taking priority over these FM Translators. K-LOVE is an important part of my day,not only do I listen to very inspriring music I also get infomation about up coming events I other wise would not get.I choose to give my finacial support to this station so that non-christains as well as christians can benifit from the programing created to serve the public as an alternative to commercial radio that is sometimes offensive and filled with asvertisments. I pray that your desicion willbe to the benifit of all who listen to the radio not just to the profit line. Thank you for your time.
